

Projects Committee  
8<sup>th</sup> Meeting  
22 September 2014  
London, United Kingdom

## Coffee Development Projects

### Progress Report

#### Background

1. The following report provides a summary of the status of projects submitted to the ICO for technical appraisal and for funding consideration by external sources and those already approved and funded.
2. As at 8 September 2014, 38 projects totalling around US\$104 million have been funded by the Common Fund for Commodities (CFC) (US\$54 million), by bilateral and multilateral donor institutions in the form of co-financing (US\$30 million), and by the beneficiary countries in the form of counterpart contributions (US\$20 million).
3. A summary of each project is listed in the attached table which is divided into five sections, as follows: Section I: Projects – under technical consideration by the ICO (new or revised); Section II: Projects – Under implementation/to be started; Section III: Projects – Approved by the ICC and seeking funds for implementation, Section IV: Projects – Concluded and Section V: Projects – To be reformulated and resubmitted to the ICO. For more extensive details of the projects, Members should consult the ICO website at [http://www.ico.org/what\\_we\\_do.asp](http://www.ico.org/what_we_do.asp).
4. Proposals to be considered by the Council in March 2015 should reach the Organization before **30 December 2014**. A list of acronyms used in this document is contained in the attached Annex.

#### Action

The Projects Committee is requested to take note of this report.

## SUMMARY OF PROJECTS

Section	Project title and ID [related Fast Track]	Location/ PEA/ Duration	1. Total cost 2. Major source of financing* 3. Co-financing Agency/donor 4. Counterpart Contribution	ICO document(s)	Description	Approval / Consideration  Progress VSS recommendations and follow-up
<b>SECTION I: PROJECTS – UNDER TECHNICAL CONSIDERATION BY THE ICO (NEW OR REVISED)</b>						
1.1	Promotion of a sustainable coffee industry in the Central African Republic	Location: Central African Republic  PEA: Café Gbako  Duration: 3 years	1. US\$758,000 2. US\$387,000 3. US\$331,000 4. US\$40,000	Proposal: PJ-77/14	The project will strengthen an existing coffee roasting processor to address an increasing domestic consumption while raising the country's share of the coffee value chain.	ICO VSS – Aug 2014: The proposal was considered for the first time by the VSS in Aug 2014. The VSS was split on whether to endorse or reject the proposal.  Follow up: The proposal was submitted to the CFC in Jul 2014 as a private sector initiative in the framework of the fourth call for proposals. The CFC found that the proposal was not suitable for its submission to the CC.
<b>SECTION II: PROJECTS – UNDER IMPLEMENTATION/TO BE STARTED</b>						
2.1	Qualitative and quantitative rehabilitation of coffee with the aim of improving living conditions of coffee farmers afflicted and displaced by war in the Democratic Republic of Congo  <b>CFC/ICO/51</b>	Location: Congo (Dem. Rep.)  PEA: VECO  Duration: 3 years	1. US\$2,637,540 2. US\$1,368,990 3. US\$900,000 4. US\$368,550	Proposal: WP-Board 1055/08 VSC comments: EB-3951/08 EB-3960/09  Progress report: PJ-80/14 (Annex I)	The aim of this project is to rehabilitate the coffee sector through the creation of centres for propagation and distribution, the establishment of extension and support teams and making available to farmers high performance cuttings, essential inputs and appropriate guidance.	<b>ICO VSC: Sep 2008 and Mar 2009</b> <b>ICO ICC: Mar 2009</b> <b>CFC CC: Jul 2011</b> <b>CFC EB: Oct 2011</b>  <b>Follow-up:</b> After the CFC appointed VECO (VREDESEILANDEN), a Belgium non-for-profit organization, as the PEA the project legal documents were signed in Nov 2013. The project was launched in Mar 2014. A progress report will be circulated in Sep 2014.

Section	Project title and ID [related Fast Track]	Location/ PEA/ Duration	1. Total cost 2. Major source of financing* 3. Co-financing Agency/donor 4. Counterpart Contribution	ICO document(s)	Description	Approval / Consideration  Progress VSS recommendations and follow-up
2.2	Sustainable Credit Guarantee Scheme to promote scaling up of enhanced processing practices in Ethiopia and Rwanda  <b>CFC/ICO/48</b>	Location: Burundi, Congo (Dem. Rep.), Ethiopia and Rwanda  PEA: CABI-ARC  Duration: 5 years (02/11 – 02/16)	1. US\$8,013,240 2. US\$3,240,210 3. US\$4,421,780 <i>Rabobank Foundation and local bank</i> 4. US\$351,250	Proposal: WP-Board 1053/08 VSC comments: EB-3951/08  See also Project 4.15: <b>[CFC/ICO/22]</b>  Progress reports: PJ-29/12 (Annex VII) PJ-39/12 (Annex VII) PJ-48/13 (Annex V) PJ-54/13 (Annex II) PJ-69/14 (Annex I) PJ-80/14 (Annex II)	This project proposal is designed to improve livelihoods of small-scale coffee farmers in Eastern and Central Africa on a sustainable basis. This will be achieved by promoting the production of high quality coffee, through the adoption of enhanced coffee processing practices. The high quality coffees will subsequently attract premium prices in the market thereby translating into improved household income.	<b>ICO VSC: Sep 2008 and Mar 2009</b> <b>ICO ICC: Mar 2009</b> <b>CFC CC: Jan 2010</b> <b>CFC EB: Apr 2010</b>  <b>Follow-up:</b> The project launch took place in Aug 2011 in Ethiopia. Activities have been carried out in two participating countries. An annual project planning workshop took place in Rwanda in Dec 2012. A supervision mission carried by ICO and Rabobank was organized in Rwanda in Jun 2014 following which a recommendation was made to involve the second bank, BRD to overcome the limited access to the loans of the BPR by farmers A progress report will be circulated in Sep 2014.
2.3	Competitive coffee enterprises programme for Guatemala and Jamaica  <b>CFC/ICO/46</b>	Location: Guatemala and Jamaica  PEA: Anacafé [P] and CIB [P]  Duration: 3 years (07/10 – 07/13) Extended until 08/14	1. US\$4,750,000 2. US\$2,500,000 3. US\$1,000,000 4. US\$1,250,000	Proposal: WP-Board 1024/07 VSC comments: EB-3923/07  Progress reports: PJ-8/11 Annex VIII PJ-13/11 (Annex VII) PJ-29/12 (Annex V) PJ-39/12 (Annex V) PJ-48/13 (Annex III) PJ-54/13 (Annex III) PJ-69/14 (Annex II)	The project aims to strengthen the coffee sectors in Guatemala and Jamaica through a Coffee Competitiveness Programme based on six components: 1) Sustainable development; 2) Income diversification; 3) Marketing intelligence; 4) Marketing; 5) Funding; and 6) Institutional strengthening.	<b>ICO ICC: May 2007</b> <b>CFC CC: Jan 2008, Jan and Jul 2009</b> <b>CFC EB: Oct 2009</b>  <b>Follow-up:</b> The implementation of the project started in Jul 2010. A supervisory visit to Jamaica was carried out in May 2013. The project was extended until end of Aug to allow the completion of the remaining activities. The closing workshop will take place in Oct 2014 in Guatemala. An Executive Summary of the final report will be circulated in Mar 2015.

Section	Project title and ID [related Fast Track]	Location/ PEA/ Duration	1. Total cost 2. Major source of financing* 3. Co-financing Agency/donor 4. Counterpart Contribution	ICO document(s)	Description	Approval / Consideration  Progress VSS recommendations and follow-up
2.4	Building capacity in coffee certification and verification for specialty coffee farmers in AFCA countries  <b>CFC/ICO/45</b>	Location: Burundi, Ethiopia, Kenya, Malawi, Rwanda, Tanzania, Uganda, Zambia and Zimbabwe  PEA: AFCA (formerly EAFA)  Duration: 5 years (02/10 – 01/15)	1. US\$4,600,727 2. US\$2,000,000 3. US\$1,605,002 4. US\$995,725	Proposal: WP-Board 1023/07 and Add. 1 VSC comments: EB-3923/07  See also Project 4.23: <b>[CFC/ICO/29FT]</b>  Progress reports: PJ-8/11 (Annex VII) PJ-13/11 (Annex VI) PJ-29/12 (Annex IV) PJ-39/12 (Annex IV) PJ-48/13 (Annex II) PJ-54/13 (Annex IV) PJ-69/14 (Annex III) PJ-80/14 (Annex III)	This proposal originated as the result of a study on 'Setting up a fine coffee certification programme in Eastern Africa' financed by the CFC in 2005 (see 4.23). The overall goal of the project is to build capacity in coffee certification and verification in Eastern Africa by creating a regional centre for certification and an outreach programme to ensure the active participation of producer groups.	<b>ICO ICC: May 2007</b> <b>CFC CC: Jan 2009</b> <b>CFC EB: Apr 2009</b>  <b>Follow-up:</b> The launch workshop took place on 12 Feb 2010 in Mombasa, Kenya followed by a conference on coffee certification in Jun 2010 in Nairobi with the participation of all certification standard owners including Utz Certified, Organic, Starbucks, Rainforest Alliance, Fairtrade Labelling Organization (FLO) and 4C Association. The implementation of project activities is being done in nine participating countries of the Eastern African region. A supervision mission took place in Feb 2014 in Burundi to review the remaining activities including the finalization of the IT portal and farmer training in different countries. The project closing workshop will take place in Nov 2014 in Nairobi. A representative of the PEA will report to the Projects Committee on the main achievement of the project and a progress report will be circulated in Sep 2014.
2.5	Promoting a sustainable coffee sector in Burundi	Location: Burundi  PEA: Kahawatu foundation  Duration: 5 years	1. US\$9,400,000 2. US\$0 * 3. US\$0 4. US\$0	Proposal: PJ-43/13 VSS comments: PJ-47/13	The main goal of this project is to Promote the sustainable coffee sector through the improvement of productivity and production of high quality coffee and food crops to improve the livelihoods of coffee producers.	<b>ICO VSS: Feb 2013</b> <b>ICO ICC: Mar 2013</b>  <b>Follow-up:</b> The Kahawatu Foundation set up by the private sector has appointed a Managing Director in Burundi to start the implementation of the project with the first committed funds while continuing to raise additional funding to cover all project activities. IFAD has granted project offices to Kahawatu in Bujumbura. The Executive Director has written to the African Development Bank for financial assistance.

Section	Project title and ID [related Fast Track]	Location/ PEA/ Duration	1. Total cost 2. Major source of financing* 3. Co-financing Agency/donor 4. Counterpart Contribution	ICO document(s)	Description	Approval / Consideration  Progress VSS recommendations and follow-up
<b>SECTION III: PROJECTS – APPROVED BY THE ICC AND SEEKING FUNDS FOR IMPLEMENTATION</b>						
3.1	Valorization of the Ethiopian coffee origins for marketing improvement	Location: Ethiopia  PEA: UNIDO/illycaffè  Duration: 2 years	1. US\$5,295,941 2. 3. 4.	Proposal: PJ-46/13 Rev. 1 VSS comments: PJ-47/13 PJ-53/13	The project aims at the valorization of the coffees produced in different Ethiopian regions of origin in order to improve the direct marketing of coffee at the cooperative level.	<b>ICO VSS – Feb 2013, Aug 2013 and Feb 2014:</b> The revised proposal was considered for the third time by the VSS in Feb 2014. The VSS recommended endorsing the proposal taking into consideration technical comments provided.  <b>Follow up:</b> The proponent is expected to report on the progress with the CFC.
3.2	Improving the participation of women in the coffee value chain in Cameroon	Location: Cameroon  PEA: CCIC  Duration: 3 years	1. US\$1,219,400 2. US\$907,400 3. US\$25,000 4. US\$287,000	Proposal: PJ-66/14	The project aims to increase the income of women coffee farmers through building their capacity for better marketing and processing.	<b>ICO VSS: Feb 2014:</b> <b>ICO ICC: Mar 2014</b>  <b>Follow-up:</b> The Executive Director sent the proposal to the CFC for internal assessment before submitting it to the Consultative Committee in the framework of the fourth calls for proposals. The Committee met in Jul 2014 and considered that the proposal should not be financed by the CFC due to a lack of transparent financial presentation and that the amount requested from the CFC exceeds the 50% indicative ceiling.  The Executive Director has written to the African Development Bank for financial assistance (see also project 3.6).

3.3	International research and development services for durable genetic control of the coffee leaf rust disease in Arabica coffee	Location: Worldwide  PEA: IICT-CIFC  Duration: 5 years	1. US\$2,513,088 2. US\$1,149,980 3. US\$ 4. US\$1,363,570	Proposal: WP-Board 1033/07 PJ-58/13 VSS comments: EB-3935/07 PJ-53/13 Relevant documents: ED-2094/10 ED-2105/11  See also Projects 3.17, 3.23, 3.25, 4.6 and 5.2	This project proposal is aimed at assisting the coffee-growing countries to tackle the coffee leaf rust (CLR) problem by characterizing the regional variability of the pathogen and supporting national breeding programmes in developing resistant cultivars, which offer opportunities for environmentally and economically sustainable coffee production.	<b>ICO VSC: Sep 2007</b> <b>ICO VSS: Aug 2013</b> <b>ICO ICC: Sep 2013</b>  <b>Follow-up:</b> The project does not meet the new financing criteria of the CFC. The Secretariat is in contact with the CIFC in Portugal to seek alternative sources of financing.
3.4	Best practice management of coffee berry borer (CBB) and coffee leaf rust (CLR) to improve Panama's capacity to export specialty coffees	Location: Panama  PEA: International Consultant/MIDA-Panama  Duration: 8 months	1. US\$40,000 2. US\$30,000 3. US\$0 4. US\$10,000 (in kind)	Proposal: PJ-59/13 VSS comments: PJ-53/13	This project is aimed at assisting the country in integrating management techniques to maintain and rebuild Panama's capacity to export specialty coffees and to promote cooperation between public and private sectors regarding research, innovation and promotion.	<b>ICO VSS: Aug 2013</b> <b>ICO ICC: Sep 2013</b>  <b>Follow up:</b> As the proposal does not meet the new financing criteria of the CFC the Secretariat is making contacts for alternative sources of financing. The Executive Director wrote to the Inter-American Institute for Cooperation on Agriculture in Costa Rica for financial assistance. A reply is awaited.

3.5	Revitalization of the Coffee Industry in Yemen (a project to engage, motivate and equip industry stakeholders to improve the productivity, quality and market access of Yemeni coffee and slow down the rate of expansion in qat production)	Location: Yemen  PEA: tbd  Duration: 3 years	1. US\$4,884,900 2. US\$3,844,600 3. US\$250,000 (CFC) 4. US\$790,300	Proposal: PJ-25/12 Rev. 1 VSS comments: PJ-21/12  See also Project 4.8	The project aims at improving and increasing production and boosting the productive capacity in Yemen with a total area of 20,000 hectares by helping and encouraging small farmers to develop agricultural capacity through introducing modern methods in agricultural and harvesting operations, and improving water efficiency.	<b>ICO VSS: Feb 2012</b> <b>ICO ICC: Mar 2012</b> <b>CFC PAC: Jan 2012</b> <b>CFC MD: Feb 2012</b> <b>CFC CC: Apr 2013</b>  <b>Follow up:</b> After PPF (US\$30,000) was granted by the CFC in Feb 2012 the full proposal was considered by the CFC CC in Jan 2013. The CFC CC approved in Apr 2013 seed funding (US\$250,000) on the condition that the proponents identify other sources of financing. This is the first ICO sponsored project approved under the CFC new financing criteria. The ICO is assisting the Government of Yemen with this task. (see Project 4.8).
3.6	Promoting coffee sustainability through increases in productivity, with particular focus on the participation of young people and women in Cameroon and the Central African Republic	Location: Cameroon and Central African Republic  PEA: IACO  Duration: 5 years	1. US\$5,070,600 2. US\$4,120,600 3. US\$0 4. US\$950,000	Proposal: WP-Board 1061/10 PJ-36/12 Rev. 1 VSC comments: EB-3973/10 PJ-38/12 PJ-47/13	The project aims to support the efforts made by the two countries to revive and rehabilitate the declining coffee sector in order to boost their rural economies, generate income for coffee farming communities and reduce poverty among coffee farmers.	<b>ICO VSC: Mar 2010</b> <b>ICO VSS: Sep 2012 and Feb 2013</b> <b>ICO ICC: Mar 2013</b>  <b>Follow-up:</b> The proposal was submitted to the CFC for consideration in Jul 2013. However, it's been advised to follow the new criteria of CFC. Due to the change in the CFC financing criteria now based on repayable loans, project proposals designed to address development issues should be financed through grant. The Executive Director has written to the African Development Bank. The bank reply is awaited.
3.7	Empowering women in Brazilian coffee cooperatives to improve coffee quality	Location: Brazil  PEA: IWCA Brazil  Duration: 6 months	1. US\$50,000 2. US\$45,000 3. US\$5,000 4. US\$0	Proposal: PJ-45/13 VSS comments: PJ-47/13	The main goal of this project is to train women in coffee from several producer regions in Brazil in order to provide them the necessary knowledge about the product they produce and how they can improve the quality of this product and consequently obtain a better price.	<b>ICO VSS: Feb 2013</b> <b>ICO ICC: Mar 2013</b>  <b>Follow-up:</b> The project does not meet the new financing criteria of the CFC.

Section	Project title and ID [related Fast Track]	Location/ PEA/ Duration	1. Total cost 2. Major source of financing* 3. Co-financing Agency/donor 4. Counterpart Contribution	ICO document(s)	Description	Approval / Consideration  Progress VSS recommendations and follow-up
3.8	Quality, sustainability and networking to improve the competitiveness of the Veracruz coffee sector in Mexico	Location: Mexico  PEA: Institute of Ecology, A.C., Mexico  Duration: 4 years	1. US\$4,284,490 2. US\$4,284,490 3. US\$0 4. US\$0	Proposal: PJ-44/13 VSS comments: PJ-47/13	The main goal of this project is to increase the competitiveness of small and medium coffee producers in Veracruz, Mexico's second biggest coffee-producing State.	<b>ICO VSS: Feb 2013</b> <b>ICO ICC: Mar 2013</b>  <b>Follow-up:</b> The project does not meet the new financing criteria of the CFC. The Executive Director has written to the Inter-American Development Bank to request financial assistance.
3.9	Economic incentives for coffee agroforestry systems in Costa Rica (Concept note)	Location: Costa Rica  PEA: UNDP GCF and ICAFE  Duration: 2 years	1. US\$2,000,000 2. US\$800,000 3. US\$1,000,000 4. US\$200,000 <i>FONAFIFO</i> <i>ICAFE</i>	Proposal: PJ-26/12 VSS comments: PJ-21/12 PJ-38/12	The main goal of this project is to improve the competitiveness of coffee produced in Costa Rica through the development of Payment for Environmental Services (PES) for coffee agroforestry systems within Costa Rica's long established National Forestry Financing Fund (FONAFIFO).	<b>ICO VSS – Feb and Aug 2012</b> <b>ICO ICC – Sep 2012</b>  <b>Follow-up:</b> In Dec 2012 the CFC informed that the newly prescribed format and pre-determined criteria (Call for proposals) are now enforced. Proponents should adapt the proposal to the new CFC format, if opportune, and/or to suggest relevant potential donors.
3.10	Sustainable input credit for financing the production end of the coffee value chains in Kenya, Tanzania and Uganda	Location: Kenya, Tanzania and Uganda  PEA: CABI Africa  Duration: 3 years	1. US\$2,600,000 2. US\$2,100,000 3. US\$0 4. US\$500,000	Proposal: PJ-22/12 VSC comments: PJ-21/12  See also Project 4.13: <b>[CFC/ICO/20]</b>	The project aims to scale up/out a sustainable input credit scheme for small-scale coffee farmers in Kenya, Tanzania and Uganda. It builds on the positive outcomes of the pilot project CFC/ICO/20.	<b>ICO VSS: Feb 2012</b> <b>ICO ICC: Mar 2012</b>  <b>Follow up:</b> Due to the change in the financing framework of the CFC, the present format of the project is no longer suitable.
3.11	Financial mechanisms for sustainable coffee in Colombia and Honduras	Location: Colombia and Honduras  PEA: UNDP GCF  Duration: 2 years	1. US\$4,900,850 2. US\$1,500,000 3. US\$3,000,000 4. US\$400,850 <i>GEF Grant implemented through UNDP in Colombia and Honduras</i>	Proposal: PJ-23/12 VSS comments: PJ-21/12	The main goal of this project is to increase income of small-scale coffee farmers through productive practices that help maintain ecosystems.	<b>ICO VSS: Feb 2012:</b> <b>ICO ICC: Mar 2012</b>  <b>Follow-up:</b> In Dec 2012 the CFC informed that the newly prescribed format and pre-determined criteria (Call for proposals) are now enforced. Proponents should adapt the proposal to the new CFC format, if opportune, and/or to suggest relevant potential donors.

3.12	Adaptation to climate change in three PROMECAFE member countries (Costa Rica, Guatemala and Honduras)	Location: Costa Rica, Guatemala and Honduras  PEA: CIAT  Duration: 3 years	1. US\$600,000 2. US\$300,000 3. US\$300,000 4. US\$0	Proposal: PJ-3/11 Rev. 1 VSC comments: PJ-5/11 PJ-16/11	This new project proposal is designed to study the implications of climate change for coffee productivity and quality in the coffee producing regions of Costa Rica, Guatemala and Honduras as well as to provide some idea as to where high-quality coffee is likely to grow in the future and the extent to which the suitability of these areas is likely to change over a given period.	<b>ICO VSS: Mar and Sep 2011</b> <b>ICO ICC: Sep 2011</b>  <b>Follow-up:</b> In Dec 2012 the CFC informed that the newly prescribed format and pre-determined criteria (Call for proposals) are now enforced. Proponents should adapt the proposal to the new CFC format, if opportune, and/or to suggest relevant potential donors. The Executive Director wrote to the Inter-American Institute for Cooperation on Agriculture in Costa Rica for financial assistance. A reply is awaited.
3.13	Study of the sustainability of the coffee supply chain versus climate change adaptation and mitigation using the life cycle assessment (LCA)  <b>CFC/ICO/50/FT/FA</b>	Location: Worldwide  PEA: OUC  Duration: 9 months	1. US\$165,000 2. US\$120,000 3. US\$45,000 <i>illy caffè (in kind)</i> 4. US\$0	Proposal: PJ-4/11 VSC comments: PJ-5/11	The study is aimed at identifying both the positive and negative effects on the environment of all activities involved in the coffee life-cycle, as well as providing a number of guidelines and recommendations for all those involved in the coffee chain who wish to apply this method of analysis.	<b>ICO VSC: Feb 2011</b> <b>ICO ICC: Mar 2011:</b>  <b>CFC CC – July 2011:</b> The CFC CC considered that the proposal was not suitable for CFC funding.  <b>Follow up:</b> As in Dec 2012 the CFC criteria (Call for proposals) has changed in favour of this topic, proponents should consider adapting the proposal to the new CFC format or explore alternative sources of funding.

3.14	Pest control model and Good Agricultural Practices (GAP) application in different coffee-growing areas in Indonesia	Location: Indonesia  PEA: ICCRI  Duration: 3 years	1. US\$500,000 2. US\$435,000 3. US\$0 4. US\$65,000	Proposal: WP-Board 1051/08 and WP-Board 1063/10 VSC comments: EB-3946/08 and EB-3978/10  Relevant documents: ICC-103-4 and Rev. 1  See also Project 4.26: <b>[CFC/ICO/02]</b>	To establish a model of pest control as an effective and efficient measure to control CBB acceptable to smallholder Robusta and Arabica farmers in different geographic and climatic conditions, in order to: i) prevent yield losses and avoid quality deterioration due to CBB attack on coffee, ii) maximize profits of smallholder farmers, and iii) alleviate poverty through income improvement.	<b>ICO VSC: May 2008 and Sep 2010</b> <b>ICO ICC: Sep 2010</b>  <b>Follow up:</b> The duly revised project was considered by the CFC PAC in Nov 2010, which considered that any involvement of the CFC would be in a minor capacity with national institutions taking the lead in financing and operational roles. Proponents should adapt the proposal to the new CFC format, if opportune, and/or to suggest relevant potential donors.
3.15	Improving African coffee processing and market access	Location: Côte d'Ivoire and Kenya  PEA: IACO  Duration: 4 years	1. US\$5,300,000 2. US\$2,400,000 3. US\$2,900,000 4. US\$0	Proposal: WP-Board 1062/10 VSC comments: EB-3978/10	The broad goal of the project is to reduce poverty of coffee farmers in a sustained manner through equipping them with entrepreneurial skills and access to both local and foreign coffee markets.	<b>ICO VSC: Sep 2010</b> <b>ICO ICC: Sep 2010</b>  <b>Follow up:</b> It is expected that IACO will prepare a revised proposal that will meet the new CFC criteria or initiate contacts with potential donors.
3.16	Enhancing the potential of Robusta gourmet coffee production in Uganda, Tanzania and Angola	Location: Uganda, Tanzania and Angola  PEA: IAO/MAE  Duration: 2 years	1. US\$3,453,960 2. US\$2,837,840 3. US\$100,000 4. US\$516,120	Proposal: WP-Board 1059/09, Rev. 1 and Rev. 2 VSC comments: EB-3965/09 EB-3973/10  See also Project 4.12: <b>[CFC/ICO/39]</b>	The aim of this project is to add value to Robusta coffee in Uganda, Tanzania and Angola to promote the coffee-producing regions and their local cultural heritage.	<b>ICO VSC: Sep 2009 and Mar 2010</b> <b>ICO ICC: Mar 2010</b>  <b>CFC PAC – Nov 2010:</b> The project was considered by the CFC PAC in Nov 2010.  <b>Follow up:</b> The proposal was revised taking into consideration the CFC PAC's suggestions. Proponents should adapt the proposal to the new CFC format, if opportune, and/or to suggest relevant potential donors.

4.2	Economic Crises and Commodity dependent LDCs: Mapping the exposure to market volatility and building resilience to future crises  <b>CFC/ICO/49FA</b>	Location: Tanzania and Zambia (Anglophone), Benin and Burundi (Francophone), Cambodia, Lao PDR and Nepal from the Asian region  PEA: UNCTAD Division on Africa, LDCs and Special Programmes  Duration: 1 year (10/10 – 10/11) Extended until 12/13 Concluded: Dec 2013	1. US\$532,250 2. US\$429,250 3. US\$0 4. US\$103,000 <i>UN LDC IV - UN OHRLLS UNCTAD Trust Fund</i>	Proposal: PJ-6/11  Progress reports: PJ-29/12 (Annex VI) PJ-39/12 (Annex VI) PJ-48/13 (Annex IV)	The project will examine and analyse the impact of the economic crisis on LDCs with a view to proposing policy responses for recovery and measures to insulate/reduce impact of such crisis on their economies in future. In particular, it would look into the vulnerability of commodity dependent LDCs resulting from their large exposure to external markets, limited diversification and poor capital base. This vulnerability is particularly important in the context of the volatility of the global markets, exemplified by the current economic and financial crisis.	<b>ICO ICC – Sep 2010:</b> The Council noted the report given by the Executive Director on the 17th Annual Meeting of the CFC and International Commodity Bodies (ICBs) held in Japan on 31 Aug and 1 Sep 2010, where participants had discussed the impact of the financial and economic crisis on commodities, new contributions by 2012, the future role and mandate of the CFC and preparations for the Fourth United Nations Conference on Least Developed Countries (LDC-IV). Subsequently, the ICO was appointed (on behalf of all the other ICBs) to supervise the implementation of the project submitted by UNCTAD to the CFC. The outcome of this project was presented at the Fourth UN Conference on LDCs (UN LDC-IV) in Istanbul, Turkey, in May 2011 and in Doha, Qatar in Apr 2012.  <b>CFC CC: Jul 2010</b> <b>CFC EB: Oct 2010</b>  <b>Follow-up:</b> The representative of UNCTAD has been reporting regularly to the Projects Committee on progress and achievements reached. Dissemination activities will be carried out in Cambodia in October 2013. A full completion report is awaited.

A supervision mission to Côte d'Ivoire took place in Jun 2011. A concluding workshop to discuss its achievements and the way forward took place in Côte d'Ivoire in Apr 2012 with the participation of the Managing Director of the CFC. The project has been extended for one year in Côte d'Ivoire with the entire funding provided by the country while a fast track funding has been granted by the CFC to Burundi for an extension taking into account additional activities. The project concluded in Dec 2012. An Executive Summary of the final report was circulated in Sep 2013.
4.8	Improving coffee productivity in Yemen (Concept note)	Location: Yemen  PEA: Consultant  Duration: 6 months Concluded: 2012	1. US\$30,000 2. 3. US\$ 4. US\$	Proposal: PJ-25/12 VSS comments: PJ-21/12	The project aims at improving and increasing production and boosting the productive capacity in Yemen with a total area of 20,000 hectares by helping and encouraging small farmers to develop agricultural capacity through introducing modern methods in agricultural and harvesting operations, and improving water efficiency.	<b>ICO VSS: Feb 2012</b> <b>ICO ICC: Mar 2012</b> <b>CFC PAC: Jan 2012</b> <b>CFC MD: Feb 2012</b>  <b>Follow up:</b> After PPF was granted by the CFC in Feb 2012 the full proposal was prepared by the consultant (see project 3.5).

The results of the project will also be disseminated to Cuba, Guatemala and Honduras.	<b>ICO ICC: Sep 2004</b> <b>CFC CC: Jul 2005 / CFC EB: Oct 2005</b>  <b>Follow-up:</b> The results of this project were disseminated in two workshops in Ciudad de Guatemala in Mar 2010 and Aug 2011, with the participation of experts from Honduras (IHCAFE) and Guatemala (Anacafé). Four experts from Cuba attended the closure of the project, held in Manta in Aug 2012.
4.10	Pilot rehabilitation of the coffee sectors in Honduras and Nicaragua  <b>CFC/ICO/11</b>	Location: Honduras and Nicaragua  PEA: PROMECAFE [C]  Duration: 4 years (04/06 – 04/10) First extension until 12/10, second extension until 09/11 Concluded: 2011	1. US\$6,837,000 2. US\$4,220,000 3. US\$505,000 4. US\$2,112,000  <i>Government of Nicaragua</i>	Proposal: EB-3696/98 PR-270/06 Progress reports: ICC-97-1 (Annex VI) ICC-98-1 (Annex VI) ICC-100-5 (Annex II) ICC-101-2 (Annex I) ICC-102-3 (Annex I) ICC-103-8 (Annex I) ICC-104-4 (Annex I) ICC-105-10 (Annex I) PJ-8/11 (Annex I) Executive Summary of the final report: ICC-107-13 (Annex I)	Following severe disruption by Hurricane Mitch in these countries, this project will help to rebuild the coffee sector through replacing coffee wet processing capacity damaged or lost during the hurricane with cleaner environmentally friendly technologies to reduce water contamination.	<b>ICO ICC: Jan 1999</b> <b>CFC CC: Jan 1999 / CFC EB: Apr 2000</b>  <b>Follow-up:</b> The project was launched in Apr 2006 in Honduras and Nicaragua. A joint CFC/ICO mission was carried out in Honduras in Jul 2010 to supervise the project. Findings indicate that implementation is progressing well and on time in Honduras, but with substantial delays in Nicaragua due to the constraints faced by the Government in issuing the CFC loan to farmers. The request of the Government of Nicaragua for an extension of eight months, without budgetary implications, was approved by the CFC. An Executive Summary of the final report was circulated to the Council in Sep 2011.

A final report was circulated to the participating countries during the 5 <sup>th</sup> African Scientific Coffee Conference in Kigali on 11 Feb 2009. This report is available for consultation in the ICO Library.  The main results obtained include: In India, the adoption of practices such as two tiers of shade, the development of pheromones and regular tracing were suitable for the integrated management of the white stem borer. In Africa, biological control through the development of natural enemies appears to be preferred due to the high cost of chemical methods.

The dissemination of its results will improve production of good quality coffee, and thus export earnings.	<b>ICO ICC: Feb 1997 (outline)</b> <b>CFC CC: Jul 1998 / CFC EB: Oct 1998</b>  The project was successfully extended to a wide range of countries. A positive MTE took place in Mar 2003 and a concluding workshop took place in Brazil in Sep 2005. The final technical and management report and CD-Rom training tool on good hygiene practices were circulated in Sep 2006. The training tool can be downloaded from the website <a href="http://www.coffee-ota.org">www.coffee-ota.org</a> .  Using the results generated from this project, the ICO has contributed to Codex Alimentarius discussions on OTA, and recommended that Codex develop a proposed Code of Practice on OTA in cooperation with the FAO. Codex finalized the Code of Practice in Jul 2009 and it was circulated to Members in Sep 2009.
4.23	Sustainable coffee development in Eastern Africa  <b>CFC/ICO/29FT</b>	Location: Eastern Africa  PEA: EAFA consultant  Duration: 6 months  Concluded: 2005	1. US\$30,000 2. US\$15,000 3. US\$15,000 4. US\$0	Proposal: WP-Board 923/03 Final Report: ICC-95-1 (Executive Summary)	To support sustainable coffee development in Eastern Africa by addressing issues related to coffee certification.	<b>ICO ICC: Jan 2003</b> <b>CFC CC / CFC MD: Jul 2003</b>  A final report entitled 'Setting up a fine coffee certification programme in Eastern Africa' was circulated in May 2006.

4.24	Study of the potential for commodity exchanges and other forms of market places in COMESA countries  <b>CFC/ICO/24FT</b>	Location: Burundi, Ethiopia, Kenya, Malawi, Rwanda, Tanzania, Uganda, Zambia and Zimbabwe  PEA: Consultant  Concluded: 2003	1. US\$60,000 2. US\$60,000 3. US\$0 4. US\$0	Proposal: WP-Board 896/01  A copy of the study is available on request from the ICO.	This study should allow countries in the COMESA region to adopt modern techniques of trading locally, regionally and internationally, to optimise economic benefits to the farmers and countries concerned.	<b>CFC EB: Oct 2001</b>  This study was undertaken as the first step of the implementation of 'Coffee price risk management in Eastern and Southern Africa', which was subsequently cancelled by the CFC in Mar 2013.
4.25	Regional workshop on the coffee crisis in Central America  <b>CFC/ICO/26FT</b>	Location: Guatemala  PEA: Anacafé  Concluded: 2003	1. US\$40,000 2. US\$40,000 3. US\$0 4. US\$0		Regional workshop on the coffee crisis.	<b>CFC CC: Jan 2003 / CFC EB: Apr 2003</b>  The workshop took place in Sep 2003.
4.26	Integrated management of the coffee berry borer  <b>CFC/ICO/02</b>	Location: Colombia, Ecuador, Guatemala, Honduras, India, Jamaica and Mexico  PEA: CABI  Concluded: 2002	1. US\$5,467,000 2. US\$2,968,000 3. US\$850,000 <i>CIRAD: US\$400,000</i> <i>ODA: US\$250,000</i> <i>USDA: US\$200,000</i> 4. US\$1,649,000	Proposal: EB-3602/96 Progress reports: EB-3669/98 & Revs. 1, 2, 3, ICC-81-1, ICC-82-2, ICC-83-2 ED-1830/02 (final review meeting) ICC-86-5 (Executive Summary 1998-2002); Manual (CD-Rom) ICC-103-4 (preliminary report on impact evaluation) and ICC-103-4 Rev. 1 (Executive Summary of the impact evaluation report)	The coffee berry borer is probably the world's most serious insect pest of coffee and has caused heavy losses costing millions of dollars worldwide. The project promoted sustainable development by introducing an effective integrated pest management system and reducing the use of chemical pest control methods. It was also designed to enhance productivity and competitiveness through producing higher quality coffee and reducing production losses.	<b>ICO ICC: May 1996</b> <b>CFC CC: Sep 1996 / CFC EB: Oct 1996</b>  A final review meeting took place in May 2002.  A new project proposal on CBB, submitted by PROMECAFE was approved by the Council in May 2008. In May 2008 the CFC recommended that an impact assessment for this project should be carried out. An Executive Summary of the impact evaluation report was circulated to the Council in Mar 10. The full report is available on the Projects Section of the ICO website.

Section	Project title and ID [related Fast Track]	Location/ PEA/ Duration	1. Total cost 2. Major source of financing* 3. Co-financing Agency/donor 4. Counterpart Contribution	ICO document(s)	Description	Approval / Consideration  Progress VSS recommendations and follow-up
4.27	Coffee price risk management in East Africa  CFC/ICO/21FT	Location: East Africa  PEA: Vrije Universiteit  Concluded: 2002	1. US\$60,000 2. US\$60,000 3. US\$0 4. US\$0	A copy of this study is available on request from the ICO.	Coffee price risk management in East Africa: the feasibility of intermediating price risk management to coffee farmers and coffee cooperatives in Ethiopia, Kenya, Tanzania, Uganda and Zimbabwe.	<b>CFC EB: Oct 2001</b>  This study was undertaken as the first step of the implementation of 'Coffee price risk management in Eastern and Southern Africa', which was subsequently cancelled by the CFC in Mar 2013.
4.28	Workshop on coffee quality through prevention of mould formation in Ecuador  CFC/ICO/25FT	Location: Ecuador  PEA: FAO  Concluded: 2001	1. US\$65,000 2. US\$60,000 3. US\$0 4. US\$5,000	Proposal: WP-Board 892/00 and Rev. 1	Programme for the prevention of fungal mould formation affecting coffee quality in Ecuador.	<b>CFC EB: Oct 2001</b>  This project, which was incorporated into the project to enhance coffee quality through prevention of mould formation (CFC/ICO/06), has made an important contribution to improving coffee quality in Ecuador.  COFENAC, the coffee authority in Ecuador, noted that 'The project contributed not only to the quality of Ecuadorian coffee but also to the on-going monitoring of the coffee quality in terms of OTA and other mycotoxins'.
4.29	Workshop on structured short- and medium-term finance to small-scale farmers in Africa  CFC/ICO/20FT	Location: Kenya  Concluded: 2001	1. US\$30,000 2. US\$30,000 3. US\$0 4. US\$0	A copy of the workshop proceedings is available on request from the ICO.  See also Project 4.13: [CFC/ICO/20]	A two-day workshop on structured short- and medium-term finance to small-scale farmers in Africa was held in Nairobi, Kenya in Apr 2001 (on the suggestion of the CFC). The workshop discussed major constraints to the provision of agricultural input credit and made recommendations for restructuring and re-launching the sector.	<b>ICO ICC: May 2000</b> <b>CFC EB: Oct 2000</b>  The project CFC/ICO/20 has been developed as the result of this workshop.
4.30	Characteristics of the demand for Robusta coffee in Europe  CFC/ICO/05FT	Location: Europe  PEA: APROMA  Concluded: 2001	1. US\$29,280 2. US\$29,280 3. US\$0 4. US\$0	CFC Technical Paper No. 4	Study of the characteristics of the demand for Robusta coffee in the main Eastern and Western European markets.	<b>CFC EB: Oct 1998</b>  This study was published by the CFC (Technical Paper No. 4 - Characteristics of the demand for Robusta coffee in Europe, Amsterdam, 2001).

4.31	Coffee processing study – Rwanda  CFC/ICO/22FT	Location: Rwanda  PEA: Consultants  Concluded: 2000	1. US\$68,000 2. US\$68,000 3. US\$0 4. US\$0	Proposal: EB-3695/98; Executive Summary: ICC-81-4 Final report: EB-3757/00; CFC Technical Paper No. 7	The project's objective was to improve Rwandan coffee production by analysing the main problems associated with Rwandan coffee quality, identifying action to restore quality and competitiveness, and assessing the feasibility of wet processing plant facilities set up by private investors.	<b>ICO ICC: Jan 1999</b> <b>CFC CC: Jan 1999 (in principle) / CFC EB: Oct 1999</b>  The project CFC/ICO/22 was developed as a result of this study. A paper was published by the CFC (Technical Paper No. 7 – Rehabilitation of the coffee sector: Rwanda. Development of washed processing of coffee within a framework of private investment, Amsterdam, 2001).
4.32	Study on coffee marketing systems and trading policies in selected coffee-producing countries  CFC/ICO/04FA	Location: Angola, Cameroon, Congo (Dem. Rep.), Ethiopia, Ghana, Guatemala, India, Madagascar and Togo  PEA: World Bank  Concluded: 2000	1. US\$289,068 2. US\$243,868 3. US\$0 4. US\$45,200	Proposal: EB-3598/96, final study report, ICO/CFC individual country studies for each of the nine participating countries, EB-3752/00 (analytical report by consultant), CFC Technical Paper No. 3	The study evaluated coffee marketing systems and policies and identified factors important for effective marketing, helping to guide developing countries in improving the marketing of their coffee.	<b>ICO ICC: May 1995</b> <b>CFC CC: Sep 1996 / CFC EB: Apr 1997</b>  The results of this project led to the development by the ICO of a series of coffee country profiles for producing and consuming countries.
4.33	Development of gourmet coffee potential  CFC/ICO/01	Location: Brazil, Burundi, Ethiopia, Papua New Guinea and Uganda  PEA: ITC  Concluded: 2000	1. US\$1,412,000 2. US\$1,018,000 3. US\$110,000 4. US\$284,000	Proposal: EB-3533/95 Rev. 3 Completion report: ICC-81-2 Gourmet coffee project Volume 1 (Summary, marketing and technology, marketing reports) and Volume 2 (country reports)	This project demonstrated the return on investment potential of the gourmet approach, identified new gourmet coffees and assisted countries in marketing them. Technologies developed have been continued by the Cup of Excellence Programme.	<b>ICO ICC: May 1995</b> <b>CFC CC: Apr 1996 / CFC EB: Oct 1996</b>  This project demonstrated that the proactive involvement of country, private sector and civil society representatives, during its implementation, can lead to a successful assumption of responsibility by stakeholders, thereby making the project activities sustainable over time. It generated several activities, such as a section of the Coffee Guide website (Chapter 2: Niche markets) and the Cup of Excellence Programme.

<b>SECTION V: PROJECTS – TO BE REFORMULATED AND RESUBMITTED TO THE ICO</b>						
5.1	Enhancing income of smallholder farmers groups in the coffee producing belt of Nigeria	Location: Nigeria  PEA: Federal Government of Nigeria  Duration: 5 years	1. US\$5,822,400 2. US\$4,822,400 3. N/A 4. US\$1,000,000	Proposal: WP-Board 969/05 Verbal report: VSC comments (see document EB-3891/05, paragraph 35)	To improve the income of smallholder groups and individual farmers by strengthening their capacities in the areas of harvest and post-harvest handling.	<b>ICO VSC – May 2005:</b> The VSC considered this proposal in Apr 2005 and decided that it required further analysis and considerable reformulation.  <b>Follow up:</b> The proponents have been advised of the VSC's recommendations and a revised proposal is awaited.
5.2	Characterization, enhanced utilization and conservation of <i>Coffea</i> germplasm diversity	Location: Worldwide  PEA: Cenicafe of FEDECAFE and Cornell University  Duration: 5 years	1. US\$3,000,000 2. US\$3,000,000 3. US\$0 4. US\$0	Proposal: WP-Board 1054/08 and Rev. 1 VSC comments: EB-3951/08 EB-3965/09  Relevant documents: ED-2094/10 ED-2105/11 PJ-14/11 Rev. 1  See also Projects 3.1, 3.17, 3.23, 3.25 and 4.6	This project is designed to facilitate genetic diversity characterization, preservation and utilization in <i>Coffea</i> and ensure long-term sustainability of coffee production (social, economic and environmental). Estimation of genetic diversity in cultivated crops is essential for breeding programmes and for the conservation of genetic resources. All genetic-resource conservation activities require the characterization of the diversity present in both the gene pools and the gene banks.	<b>ICO VSC: Sep 2008 and Sep 2009</b>  <b>ICO EB – Sep 2009:</b> The Board recommended that the project should be revised and since it is not suitable for CFC funding, alternative sources should be identified. Document ED-2086/10 invited Members to consider ways of coordinating and cooperating with the ICGN on developing a project or programme of work for the coffee genome with long-term benefits for the coffee industry.  <b>Follow-up:</b> A meeting with the ICGN and Members took place in Sep 2010 at the ICO. It was suggested that terms of reference for a long-term initiative on this topic should be prepared. No further action has been taken until now.

5.3	Smallholder coffee expansion in Malawi (Concept note)	Location: Malawi  PEA: tbd  Duration: tbd	1. US\$ 2. US\$ 3. US\$ 4. US\$	Proposal: WP-Board 1060/10 VSC comments: EB-3973/10	The aim of this proposal is to provide smallholder farmers in the central region of Malawi with coffee as an alternative cash crop to tobacco.	<b>ICO VSC – Mar 2010:</b> The concept note was considered for the first time by the VSC in Feb 2010. The VSC recommended that it should be revised taking into consideration the technical comments provided.  <b>ICO ICC – Mar 2010:</b> The Council decided that the concept note should be further developed.  <b>Follow up:</b> The proponents have been informed and a full proposal is awaited.
5.4	Enhancing competitiveness of African coffee through a value chain strengthening	Location: Several African countries indicated under each project component  PEA: IACO  Duration: 5 years	1. US\$58,000,000 2. US\$16,800,000 (Grant) 3. US\$9,000,000 (Loan) 4. US\$0 5. US\$32,200,000	Proposal: PJ-24/12 VSS comments: PJ-21/12  See also Project 4.5: <b>[CFC/ICO/42]</b>	The main goal of this project is to address identified constraints in the coffee value chain in Africa, thereby increasing the region's coffee production, productivity, quality and overall competitiveness in the global market.	<b>ICO VSS – Feb 2012:</b> The proposal was considered for the first time by the VSS in Feb 2012. The VSS was split on whether to endorse or reject the project.  <b>Follow up:</b> In order to advance the technical screening process, preliminary comments were requested from the CFC PAC, which considered that the proposal falls outside the scope of CFC financing. If IACO agrees, the CFC would consider approaching other potential donors for financing this proposal. If there is interest in providing funding, the CFC would be favourably disposed to acting as the coordinating body for managing the resources. Comments are awaited from IACO on these suggestions.
5.5	Improving and protecting coffee production through managed pollination and disseminating biological control agents against pests and diseases (Concept note)	Location: Worldwide  PEA: Arthur Dobbs Institute  Duration: tbd	1. US\$106,000 2. US\$93,500 3. US\$12,500 4. 0	Proposal: PJ-64/13	The project will develop an interdisciplinary and practical strategy for environmentally compatible coffee production resistant to pests and diseases.	<b>ICO VSS – Feb 2014:</b> The proposal was considered for the second time by the Committee in Feb 2014. As the VSS was split on whether to endorse or reject the proposal the Committee requested that the proposal be revised and resubmitted.  <b>Follow up:</b> The proponents have been informed. The revised proposal is awaited.
