Londres, Reino Unido

**Estoques de café verde nos
países importadores
Anos civis de 2005 a 2013**

Antecedentes

1. Os termos de referência do Comitê de Estatística dispõem que o Comitê deverá examinar, avaliar e fazer recomendações sobre questões estatísticas, entre as quais o volume dos estoques de café verde nos países importadores.
2. Uma decisão tomada pela Comissão de Estatística em setembro de 2006 determinou que a Organização incorporaria em suas séries estatísticas o volume dos estoques de café verde existentes nos principais portos europeus segundo os relatórios que a Federação Europeia do Café (FEC) divulga em seu site.
3. Este documento mostra o volume mensal dos estoques de café verde registrados pela FEC em todos os principais portos europeus entre janeiro de 2005 e dezembro de 2013. Atendendo a uma solicitação formulada pelo Comitê em sua 3.^a reunião, realizada em Março de 2012, este documento também mostra o volume dos estoques de café verde existentes em outros países importadores no final de cada trimestre de 2012 e 2013, quando houver dados disponíveis.

Ação

Solicita-se ao Comitê de Estatística que tome nota deste documento.
