COFFEE AT THE TATE

The Roastery at Tate is a diverse and innovative specialty coffee space situated within the historic grounds of the Tate Britain gallery in London.

Home to Tate's Gender Equality Coffee Project (GEP) and Slot Roasting Collective, Tate Coffee's WWII Nissen Hut provides a vibrant community-led non-profit business that helps fund Tate Gallery and champion coffee producers and professionals of all genders throughout the coffee value chain.

The small team of specialists focuses on sourcing and roasting the highest quality and sustainable specialty coffees grown by inspirational female and male producers for Tate coffee, while also hosting a diverse range of slot roasters, and developing a bespoke range of contract and white label coffee services for coffee businesses and professionals.

Delegates of the 122nd Session of the International Coffee Council have the opportunity to visit the Tate Coffee roastery, sample some of the coffees and find out about their journeys from bean to cup.

Two tours of one hour each will take place on 21 September at 14:30-15:30 and 15:30-16:30, as the space has limited capacity. The site is a 10-minute walk from the International Maritime Organization, but groups will be escorted.

Book your place to avoid disappointment:
