Statistics Committee

London, United Kingdom
19 September 2019

Item 1

Draft Agenda

SC-94/19 Rev. 1

Item 2

Appointment of Chair for
2018/19

Item 3

Report on the meeting of
27 March 2019

SC-93/19

Item 4

Conversion Factors

SC-96/19

Article 2 of the ICA 2007

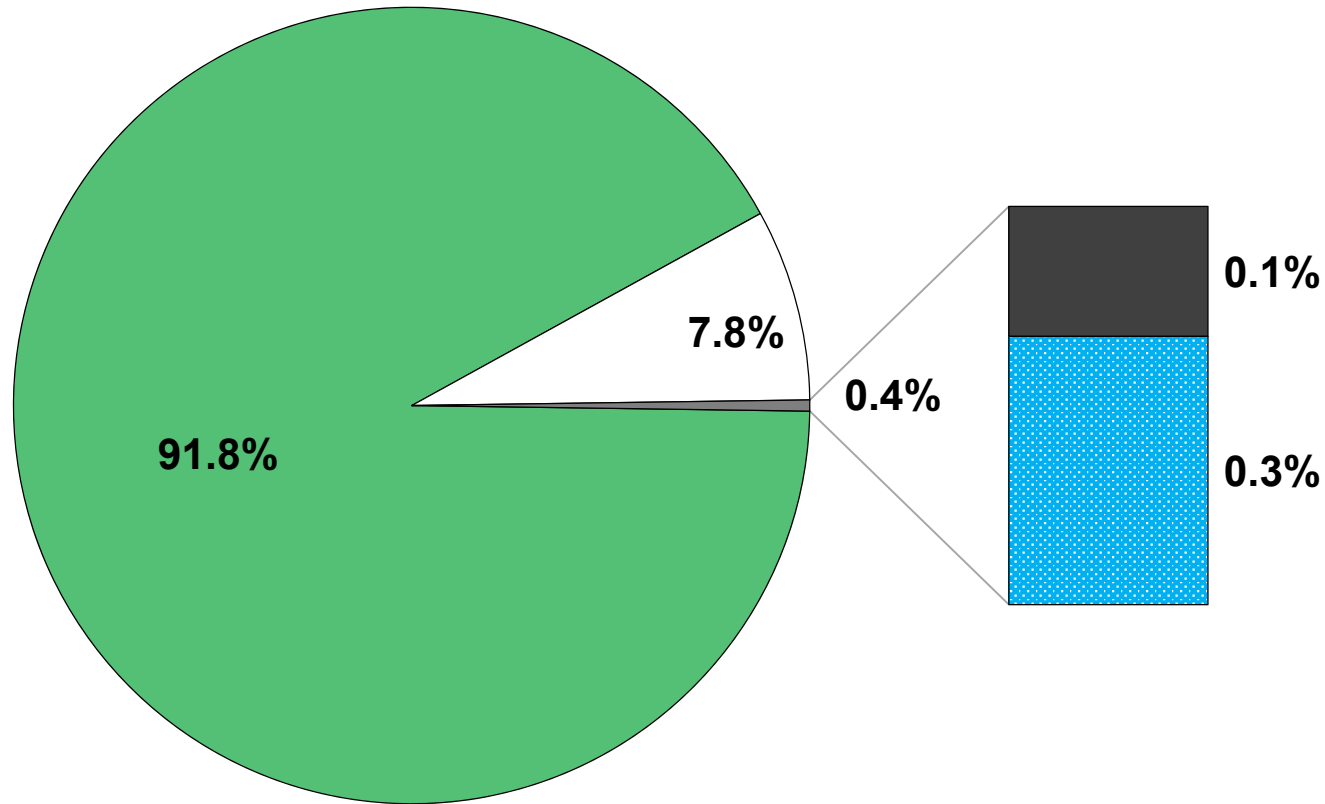

- Provisions call for a review of the conversion factors for the following forms of coffee every 3 years:
 - Roasted
 - Decaffeinated
 - Liquid (such as Ready to Drink)
 - Soluble (instant)

- Also reviewed the net weight of dried coffee solids in coffee preparations

Share of each form of coffee in exports

■ Green ■ Soluble ■ Liquid ■ Roasted

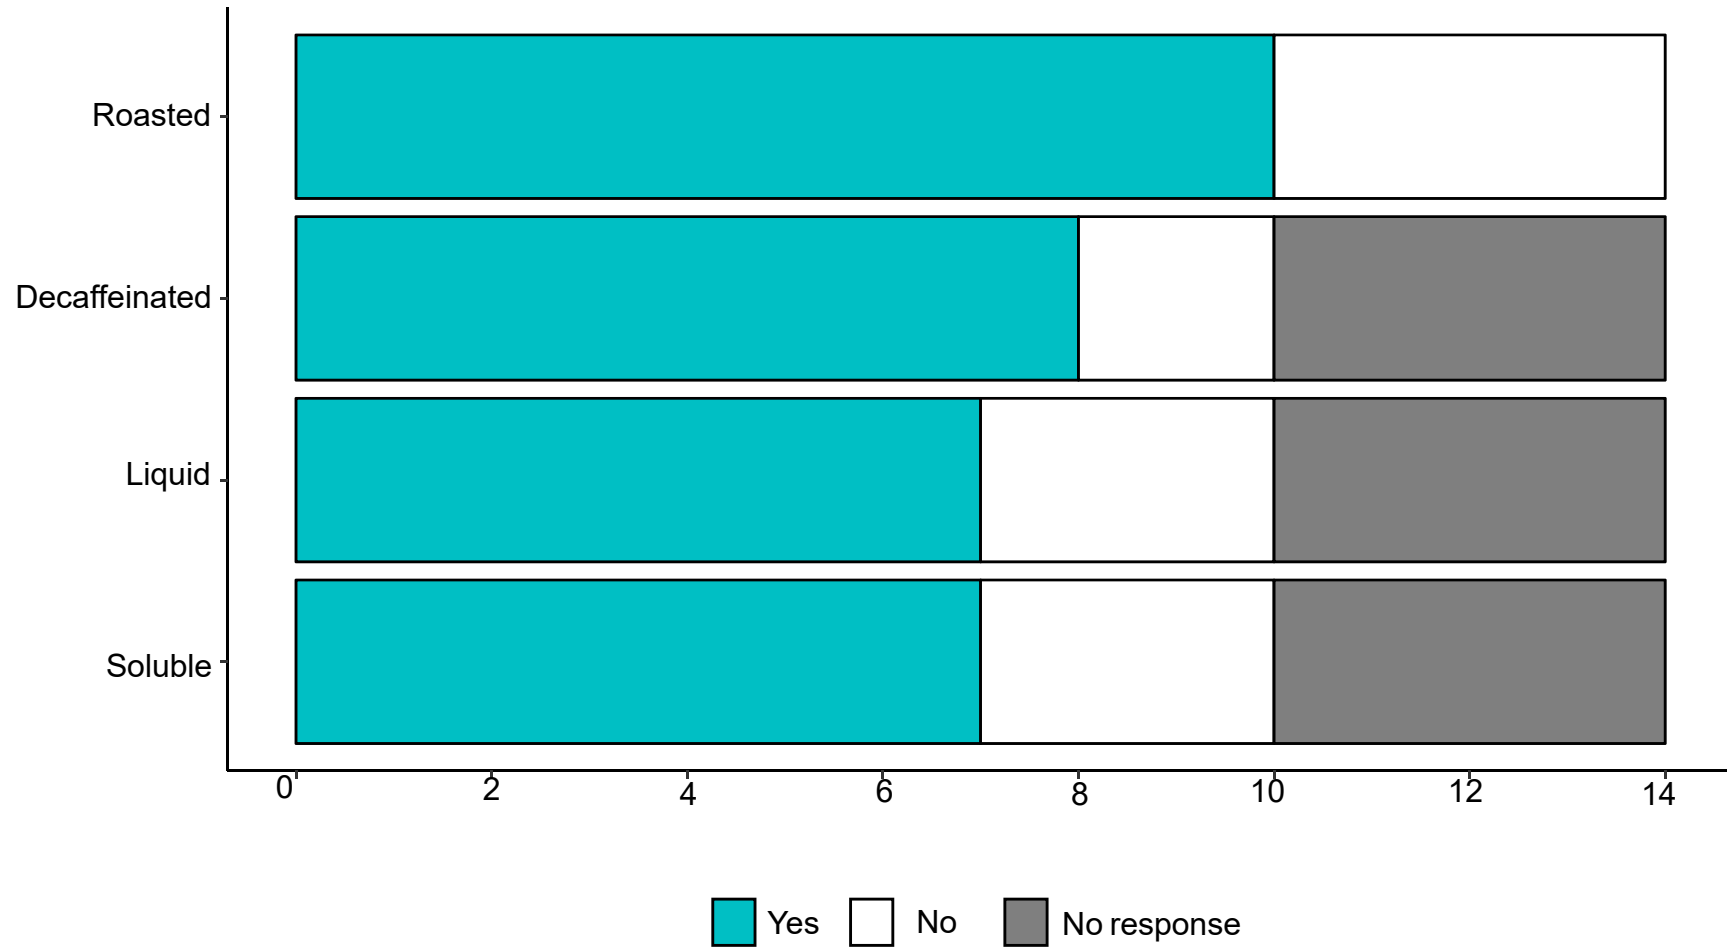

Survey Responses

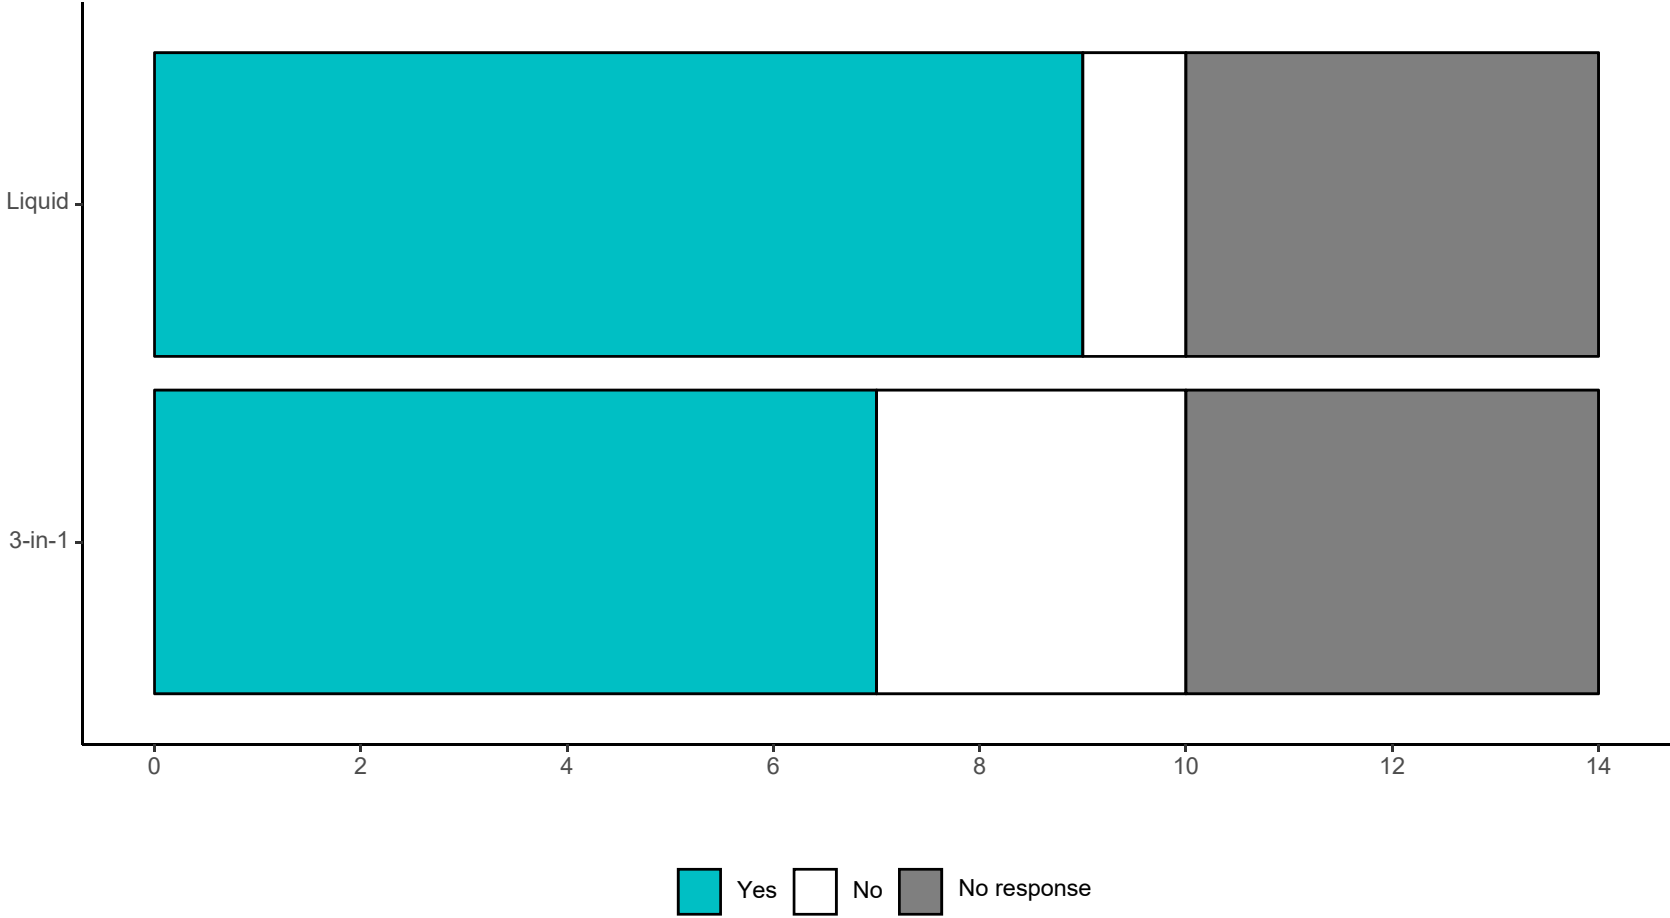

- The online survey was launched on 25 June 2019 and the Secretariat received 14 responses
- Responses came from 12 countries covering most regions as well as net-importing and exporting countries
- The type of respondents included:
 - Members (4)
 - coffee industry associations (7)
 - private sector companies (3)

Share of dried coffee weight in preparations

Should the Secretariat keep the factors used to calculate weight of dried coffee solids at their current levels?

Conclusion

- The majority of respondents recommend continuing to apply the conversion factors currently used by the Secretariat for the different forms of coffee.
- There was no clear consensus for alternative conversion factors that could be applied from the respondents who recommended changes.
- Responses where changes were recommended did not vary significantly from the current rates.
- The Secretariat is able to apply country-specific rates by form if notified by Members.

Item 5

Call for experts on
sustainability
indicators for the
Delta Project

SC-95/19

Update on Delta Project

Develop a commonly agreed sustainability performance measurement and reporting framework for the agricultural component of the value chain

Indicators that measure sustainability and track implementation of SDG commitments by the public and private sector across agricultural commodities

The framework does not cover the entire value chain but focuses on harmonizing reporting at the agricultural level across several commodities

This is a collaborative project between the public and the private sectors of both coffee and cotton

An expert group has researched different sustainability programs across the two commodities to find common areas as well as cross-referencing the SDGs

Delta Project: Draft Environmental Indicators

SDGs	Pillar	Impact focus area	Impact focus sub-area
12, 3, 6, 13, 15	Environment	Pest and Pesticide Management	Pesticide management
			Pest Management
		Water Management	Water quality
			Water use
		Soil Management	Soil conservation
			Soil erosion
			Fertilizer use
		Biodiversity and Land Use	Land conversion
			Biodiversity conservation
		Climate Change and energy use	Energy use/ Greenhouse Gas Emissions
			Farmers' adaptation to climate change

Delta Project: Draft Economic Indicators

SDGs	Pillar	Impact focus area	Impact focus sub-area
1, 10	Economic	Economic Viability	Income
			Profit
			Productivity
			Price
		Economic resilience	Debts
			Asset
			Yield volatility
			Price volatility
			Payments
			Credits
		Poverty line	Poverty reduction
		Living conditions	Access to drinking water, electricity, sanitation

Delta Project: Draft Social Indicators

SDGs	Pillar	Impact focus area	Impact focus sub-area
2, 8, 10	Social	Decent work	Wages
			Pensions
			Social protection
		Child labour	Child labour/forced labour
			Children at school
		Worker Health and Safety	Fatalities and non -fatal accidents
			Health care facilities
			Water/sanitation
		Equity and Gender	Women empowerment
			Indigenous people
		Labour rights	No discrimination
			Democratic organisations
			Freedom of association
Food security	Access to food		

Delta Project- Call for experts

Action	Deadline
Submit nominations for Working Group	17 October 2019
Circulate documents, including the methodology for the proposed set of indicators	22 October 2019
Workshop to provide feedback	7 November 2019
