Effective from 1 October 2021

Background

- 1. Every two years, in accordance with the Rules on Statistics Indicator prices, contained in document <u>ICC-105-17</u>, the market share in each group and their weightings for the calculation of the ICO composite and group indicator prices shown in Annex I of that document should be reviewed.
- 2. The last review took place in 2019 when the Statistics Committee recommended to the Council that the new group market shares and their weightings were to take effect from 1 October 2019 in accordance with the data presented in document SC-90/19.
- 3. Table 1 gives the latest information on average exports of green coffee in calendar years 2017 to 2020 to all destinations, to the European Union and to the USA by group of coffee.
