3<sup>rd</sup> Meeting  
6 March 2012  
London, United Kingdom

**Report of the meeting of the International  
Coffee Genomics Network (ICGN)**

## **Background**

1. The attached report of the meeting of the International Coffee Genomics Network (ICGN) in January 2012 (Annex I), ICGN survey (Annex II) and short powerpoint presentation describing the goals and mission (Annex III) have been received from the ICGN.
2. The ICGN will make a presentation to Members in September 2012 on progress on sequencing the coffee genome and the results of a survey among its members on prioritizing new projects. It has also confirmed its interest in working with the ICO on a joint initiative towards the characterization, enhanced utilization and conservation of diversity in *Coffea* on a global scale in the context of climate change.

## **Action**

The Projects Committee is requested to take note of this document.
