DEL CAFÉ

28 August 2012 Original: English

Statistics Committee 4th Meeting 27 September 2012 London, United Kingdom Decaffeinated soluble coffee: Imports and re-exports by the USA Calendar year 2011 and in the first six months of 2012

Background

- At the 2nd meeting of the Statistics Committee held in September 2011, it was agreed that the Organization would monitor the trade of decaffeinated soluble coffee based on imports/re-exports data received from the USA – as this is the only importing Member that, so far, has expanded its Harmonised System (HS) codes to ten digits and thus enabled a more detailed identification of its products.
- 2. This document shows the monthly volume of decaffeinated soluble coffee traded by the USA in calendar year 2011 and from January to June 2012 under the following HS codes:

•	2101.11.21.31	Extracts, essences and concentrates – decaffeinated –
		packaged for retail sales
•	2101.11.21.39	Extracts, essences and concentrates – decaffeinated –
		other

- The volumes imported and re-exported by the USA in the first six months of 2012 for 3. the two HS codes under consideration represent only 4.6% and 5.5%, respectively, of total volume of soluble coffee traded in this period. The attached table gives details on the trade of this segment in January-June 2012 compared to the volume traded in calendar year 2011.
- 4. The Organization will continue to monitor the trade of this segment in the future.

Action

The Statistics Committee is requested to take note of this document.
