**Compliance with the provision of
statistical data during the ICA 2001
and the first 9 months of coffee year
2010/11**

Background

1. This document provides information on the compliance of Members with the provision of statistical data during the lifetime of the ICA 2001 and the first nine months of coffee year 2010/11.
2. The information contained herein covers coffee years 2001/02 to 2009/10 and the first nine months of coffee year 2010/11 – October 2010 to June 2011 – which includes the period from 2 February 2011 onwards after the entry into force of the ICA 2007. It gives the requirements for the supply of statistical information with details of specific problems for each year in the respective Annexes.
3. Compliance by exporting Members in respect of the provision of timely statistics based on monthly statistical reports and/or Certificates of Origin in calendar years 2007 to 2010 is given in Annex 10. Similarly, Annex 11 shows the compliance by importing Members in the same period.
4. It should be noted that the current Rules on Statistics, contained in documents ICC-102-9 – Certificates of Origin; and ICC-102-10 – Statistical Reports, came into effect on 2 February 2011. Members have until 31 January 2012 to fully implement these Rules in their countries.

Action

The Statistics Committee is requested to examine the compliance status of each Member of the Organization, in order to make the appropriate recommendations to the Council.

**COMPLIANCE WITH THE PROVISION OF STATISTICAL DATA
COFFEE YEARS 2001/02 TO 2009/10
OCTOBER 2010 TO JUNE 2011**

Statistics provided by exporting Members

- *Preliminary monthly exports (Annex 1)*
 1. Exporting Members are requested to send to the Organization, not later than **30 days** after the close of each month, information on the total exports in the previous month. If final figures are not available, provisional figures or estimates may be provided (see paragraph 3 (a) of the Rules on Statistics – Statistical Reports, document ICC-102-10¹).

- *Monthly Reports on exports (Annex 2)*
 2. Exporting Members are requested to send to the Organization, not later than **60 days** after the close of each month, information on the volume and value of exports by form of coffee and by country of destination for the month under report. This information should be based on the relevant Certificates of Origin issued to cover coffee shipped during that period under report and should comply with the format specified in Annex I-B of the Rules on Statistics – Statistical Reports, document ICC-102-10.

- *Certificates of Origin (Annex 3)*
 3. Exporting Members are requested to transmit data in electronic files or to forward the first copy of each Certificate of Origin together with a copy of the relevant Bill of Lading to the Organization (see paragraph 5 of Rule 4 of the Rules on Statistics – Certificates of Origin, document ICC-102-9²). For the first nine months of coffee year 2010/11, 19 exporting Members, which together accounted for 90.4% of world exports, have sent data electronically³. Of the 82,992⁴ records stored in the database for the first nine months of coffee year 2010/11, 81,260 records – equivalent to 97.9% of the total – were received electronically, whereas 1,732 records – equivalent to 2.1% – were actually keyed in. The entry into force of the ICA 2007 has introduced some changes to the procedures set out in the previous Rules. Any exporting Member that may be encountering difficulties with the implementation of the current Rules should contact the Organization to request assistance.

¹ The Rules in this document supersede those contained in document EB-3830/02.

² The Rules in this document supersede those contained in document EB-3775/01.

³ Data received from some exporting Members are believed to be partial.

⁴ Including 750 records from Members of the ICA 2001.

The volume of exports from exporting countries from which no information is received by the Organization represents 6.1% of the total volume exported in the first 9 months of 2010/11. As established in paragraph 4 of Article 33 of the ICA 2007, exporting Members that have opted to issue an alternative document are required to send electronic data or the equivalent document they use to replace the ICO Certificate of Origin.

- *Monthly prices paid to growers (Annex 4)*

4. Exporting Members are requested to send to the Organization information on the average price received by growers for their produce or the minimum price, if any, guaranteed by the Government to the growers on a monthly basis (see paragraph 1 (a) of the Rules on Statistics – Statistical Reports, document ICC-102-10).

- *Annual data on opening stocks, production and internal consumption (Annex 5)*

5. Exporting Members are requested to send to the Organization estimates of production and domestic consumption for the current crop year and the following crop year and closing stocks at the end of each crop year (see paragraph 1 (b) and (c) of the Rules on Statistics – Statistical Reports, document ICC-102-10). Those exporting Members producing/exporting more than one type of coffee or using different processing methods (dry and wet) are also requested to indicate, in percentage terms, the type and method of processing. Information on the crop percentage distribution by quarter and the area under coffee and number of trees should also be sent on an annual basis (see paragraph 1 (c) of document ICC-102-10).

- *Report on imports (to come into effect from February 2012)*

6. Exporting Members are requested to send to the Organization **monthly** information on the volume and value of imports of coffee, if any, by form (and type, where applicable) and by country of origin. This information can be provided according to the relevant Harmonised System (HS) codes by product. Where monthly information is not available, annual data should be provided within **60 days** after the end of each calendar year (see paragraph 1 (a) of the Rules on Statistics – Statistical Reports, document ICC-102-10).

- *Monthly retail prices (to come into effect from February 2012)*

7. Exporting Members are requested to send to the Organization information on the representative retail market prices for roasted and/or soluble coffee for the month under report (see paragraph 1 (a) of document ICC-102-10).

Statistics provided by importing Members

- *Monthly Reports on imports and re-exports (Annex 6)*

8. Importing Members are requested to send complete reports to the Organization by email or fax, not later than **60 days** after the close of each month, information on the volume and value of imports by form of coffee and by country of origin and on the volume and value of re-exports by form of coffee and by country of destination for the month under report (see paragraph 3 (c) of document ICC-102-10).

- *Monthly retail prices (Annex 7)*

9. Importing Members are requested to send to the Organization information on the representative retail market prices for roasted and/or soluble coffee for the month under report (see paragraph 2 (a) of document ICC-102-10).

- *Information on roastings (Annex 8)*

10. Importing Members are requested to send to the Organization information on the amount of green coffee that has been roasted at the end of each quarter/calendar year, where available (see paragraph 2 (b) of document ICC-102-10).

- *Information on inventories (Annex 9)*

11. Importing Members are requested to send to the Organization information on the inventories of green coffee held by importers and roasters on the last day of the quarter/calendar year, if this information is available (see paragraph 2 (b) of document ICC-102-10).

- *Information on changes made on taxes and duties, laws and regulations of coffee exports and imports in the country*

12. **All Members** are requested to send to the Organization information on changes or revisions in the current level of taxes and duties on coffee exports/imports, or to the laws and regulations of coffee exports/imports in the country (see paragraphs 1 (d) and 2(c) of document ICC-102-10).

Compliance with Resolution Number 420

13. Following the adoption of Resolution Number 420 by the Council in May 2004, exporting Members have been requested to comply with the provisions of the Resolution. However, as this compliance is voluntary, the information on quality received from exporting Members has been monitored for coffee shipments that have taken place since 1 June 2004. Document PM-8/11 contains the latest progress report on the implementation of the Coffee Quality-Improvement Programme.

Summary tables and conclusions (Annexes 10 and 11)

14. Annex 10 shows that for 19 out of 33 exporting Members of the ICA 2007, compliance with the Organization's statistical requirements is full and satisfactory. This represents 67.8% of average exports in calendar years 2007 to 2010. Exports by 23 producing non-member countries represent 5.8% of total exports in this period. Similarly, Annex 11 shows full and satisfactory compliance by 29 importing Members⁵ representing 98.3% of average annual imports by all importing Members in the same period. It should be noted that Hungary, Tunisia and Turkey are still to comply with the statistical Rules of the Organization.

15. There are 7 exporting Members of the ICA 2007 failing to comply with their statistical obligations. Total exports by these Members represent only 0.5% of the average exports in the period under consideration. In addition to these, another 7 exporting Members, together accounting for 25.9% of the exports in the period, also show a poor compliance performance.

⁵ EU Member states are to comply individually with the statistical Rules of the Organization.

16. Except for Brazil, Costa Rica and El Salvador, the timely provision of production and internal consumption estimates by all other producing countries continues to be unsatisfactory, particularly in the last three years (see Annex 5). Exporting Members are reminded that this information is essential for the reliability of the statistics and for the accuracy of the supply/demand analysis released by the Organization.

17. As Tunisia and Turkey are new Members of the Organization, Hungary is the only importing Member still failing to comply with the statistical rules of the Organization. Efforts will continue to be made so that the authorities in these countries will eventually comply with the Organization's statistical rules.

18. Exporting and importing Members are required to keep the Organization informed of any changes to their existing level of taxes and duties on imports and exports of coffee and on the laws and regulations currently in effect in each country. In respect to some importing Members, various sources have been used to compile and integrate this information into our records – see documents ICC-107-7 and ICC-107-8.

19. The following economic studies have been prepared and will be presented to Members at the 107th Session of the Council:

ICC-107-4	Relationship between coffee prices in physical and futures markets
ICC-107-7	The effects of tariffs on the coffee trade
ICC-107-8	Obstacles to consumption
ICC-107-10	Volatility of prices paid to coffee farmers
ICC-107-11	Coffee drinking patterns

20. The entry into force of the ICA 2007 has automatically brought into effect the Rules on Statistics contained in documents ICC-102-9 and ICC-102-10, Certificates of Origin and Statistical Reports, respectively. It is expected that full cooperation will be received from all Members in complying with these new Rules from February 2012.
