Statistics Committee
21 May 2008
London, England

**Compliance with the provision of
statistical data
Coffee years 2001/02 to 2006/07
October 2007 to March 2008**

Background

1. This document provides information on the compliance of Members with the Rules on Statistics – Statistical Reports (document EB-3830/02) approved by the Council in September 2002. In the case of exporting Members, it also gives their compliance with the Rules for the application of a system of Certificates of Origin contained in document EB-3775/01.
2. The information contained herein covers the life of the 2001 Agreement (six complete coffee years: 2001/02 to 2006/07 and from October 2007 to March 2008). It gives the requirements for the supply of statistical information with details of specific problems for each year in the respective Annexes.
3. Compliance by exporting Members in respect of the provision of timely statistics based on monthly reports and/or Certificates of Origin in coffee years 2003/04 to 2006/07 is given in Annex 10. Similarly, Annex 11 shows the compliance by importing Members in the same period.

Action

The Statistics Committee is requested to examine the compliance status of each Member of the Organization, in order to make the appropriate recommendations to the Council.

**COMPLIANCE WITH THE PROVISION OF STATISTICAL DATA
COFFEE YEARS 2001/02 TO 2006/07
OCTOBER 2007 TO MARCH 2008**

Statistics provided by exporting Members

- *Preliminary monthly exports (Annex 1)*

1. Exporting Members are requested to send to the Organization, not later than **30 days** after the close of each month, information on the total exports in the previous month. If final figures are not available, provisional figures or estimates may be provided (see paragraph 3 (a) of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Monthly Reports on exports (Annex 2)*

2. Exporting Members are requested to send to the Organization, not later than **60 days** after the close of each month, information on the volume and value of exports by form of coffee and by country of destination for the month under report. The information should be based on the relevant Certificates of Origin issued to cover coffee shipped during that period under report and should comply with the format specified in Annex I-B of the Rules on Statistics – Statistical Reports, document EB-3830/02.

- *Certificates of Origin (Annex 3)*

3. Exporting Members are requested to transmit data in electronic files or to forward the first copy of each Certificate of Origin together with a copy of the relevant Bill of Lading to the Organization (see paragraph 5 of Rule 4 of the Rules on Statistics – System of Certificates of Origin, document EB-3775/01). From October 2007 to March 2008, 19 exporting Members, which together accounted for nearly 92% of total exports, are sending data electronically. Of the 44,766 records contained in the Certificates of Origin database for the period covered in this report, 44,462 records – equivalent to over 99% of the total – were transferred electronically whereas 304 records – equivalent to just under 1% – were actually keyed in. Discussions on the matter of technical or financial assistance for the implementation of an efficient statistical system are in progress with representatives of both importing and exporting Members. In the meantime, any Member country that may encounter difficulties in implementing the Rules is welcome to contact the Organization to request assistance.

- *Monthly prices paid to growers (Annex 4)*

4. Exporting Members are requested to send to the Organization information on the average price actually received by growers for their produce or the minimum price, if any, guaranteed by the Government to the growers on a monthly basis (see paragraph 9 of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Annual data on opening stocks, production and internal consumption (Annex 5)*

5. Exporting Members are requested to send to the Organization quarterly estimates of production and domestic consumption for the current crop year and the following crop year and closing stocks at the end of each crop year (see Annex I-A and paragraph 2 of the Rules on Statistics – Statistical Reports, document EB-3830/02). Those exporting Members producing/exporting more than one type of coffee or using different processing methods (dry and wet) are also requested to indicate, in percentage terms, the type and method of processing.

Statistics provided by importing Members

- *Monthly Reports on imports and re-exports (Annex 6)*

6. Importing Members are requested to send complete reports to the Organization by email or fax, not later than **60 days** after the close of each month, information on the volume and value of imports by form of coffee and by country of origin and on the volume and value of re-exports by form of coffee and by country of destination for the month under report (see Annexes II-A and II-B and pages 3 and 4 of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Monthly retail prices (Annex 7)*

7. Importing Members are requested to send to the Organization information on the representative retail market prices for roasted and/or soluble coffee for the month under report (see paragraph 10 of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Information on roastings (Annex 8)*

8. Importing Members are requested to send to the Organization information on the amount of green coffee that has been roasted at the end of each quarter/calendar year, where available (see paragraph 3 (a) of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Information on inventories (Annex 9)*

9. Importing Members are requested to send to the Organization information on the stocks of green coffee held by importers and roasters, including stocks in free ports where such exist, on the last day of the quarter/calendar year, if this information is available (see paragraph 3 (b) of the Rules on Statistics – Statistical Reports, document EB-3830/02).

- *Information on changes made on taxes and duties, laws and regulations of coffee exports and imports in the country (Annex 12)*

10. All Members are requested to send to the Organization information on changes or revisions in the current level of taxes and duties on coffee exports/imports, or to the laws and regulations of coffee exports/imports in the country (see paragraph 5 of the Rules on Statistics – Statistical Reports, document EB-3830/02). Compliance with this specific item is covered in paragraph 13 below. The status of compliance by each Member is given in Annex 12.

Compliance with Resolution Number 420

11. Following the adoption of Resolution Number 420 by the Council in May 2004, the Executive Director issued document ED-1918/04 requesting exporting Members to comply with the provisions of the Resolution. As compliance with the provisions of the Resolution is voluntary, the information on quality received from exporting Members could be monitored for coffee shipments that took place from 1 June 2004. The status of this compliance by exporting Members is also given in Annex 12 (see also document EB-3947/08 containing the latest progress report on the Coffee Quality-Improvement Programme).

Summary tables and conclusions (Annexes 10 and 11)

12. Annex 10 shows that for 26 exporting Members compliance with the Organizations' statistical requirements is full and satisfactory. This represents over 93% of average exports in coffee years 2003/04 to 2006/07. Exports by eight non-member countries listed represent less than 4% of total exports in the period. Similarly, Annex 11 shows full or satisfactory compliance by 29 importing Members, over 98% of average annual imports by all importing countries in the period. It should be noted that two EU Members, namely Bulgaria and Hungary, have yet to comply with the statistical Rules of the Organization.

13. There are 10 exporting Members failing to comply with their statistical obligations. This represents less than 1% of the average exports in the period under consideration. In addition to these, a group of 9 exporting Members, together accounting for just over 2% of the exports in the period, also shows a poor compliance performance. The matter of technical assistance offered to these countries is still under consideration. This topic will continue to

be pursued with the representatives of the countries concerned until a satisfactory solution can be achieved. A manual of best practice is being prepared by selected exporting countries and, once it is ready, the Organization will contact exporting countries with poor or no compliance to discuss how to proceed with this matter.

14. Annex 5 shows the low performance in complying with the request to provide estimated production and internal consumption by most exporting Members, particularly in the last two years. Members are reminded that the provision of this information is of vital importance for the reliability of the statistics on supply released by the Organization.

15. Following the adoption of Resolution 420, the Organization started to monitor compliance by exporting Members based on information received from Certificates of Origin. The latest report on the implementation of the Coffee-Quality Improvement Programme is contained in document EB-3947/08.

16. Importing Members are just required to send the information requested in document ED-1861/02 – in reference to the existing level of taxes and duties on imports and exports of coffee and on the current laws and regulations currently in effect in each country. Bulgaria, Czech Republic, Estonia, Finland, France, Hungary, Latvia, Lithuania, Malta, Poland, Portugal, Romania, Slovakia, and Slovenia are still to comply with this request.

17. Despite the efforts made by the representative of the EC to put the Organization in contact with the authorities in Bulgaria and Hungary, no positive response has yet been achieved. The Organization will continue to request the authorities in these countries to comply with the statistical rules.
